Publisher indicated curriculum type: **Comprehensive Curriculum** **Complementary Curriculum**

This evaluation rubric is designed to offer an evaluation to determine how well instructional materials align to the [Mississippi College- and Career- Readiness Standards \(MCCRS\) for Social Studies](#) and other criteria for high-quality instructional materials for computer science. The evaluation rubric includes key considerations for high-quality instructional materials and outlines three **Gateways** for consideration when evaluating materials. Within each Gateway, **Criterion** and related **Indicators** are provided along with **Guiding/Key Questions**.

The evaluation rubric is designed to allow reviewers to determine a threshold for quality for each gateway. Remember to focus on what is present in the instructional materials and any ancillary or complementary resources rather than what might be inferred. All scores should be based on evidence observed from the instructional materials themselves.

Scoring Protocol and Criteria:

- **No evidence (0):** No correlation between the standards and lessons, a logical sequence of content cannot be identified and/or there appear to be significant content inaccuracies, essential understandings, knowledge, or skills are not addressed, and opportunities to practice essential skills are not included.
- **Limited (1 or 2):** Limited connections between the standards and the lessons are noted, content appears to contain some inaccuracies or is not always clear, essential understandings, knowledge, or skills are not sufficiently addressed, and there is limited opportunity for students to practice essential skills.
- **Adequate (2 or 4):** Lessons are aligned with the standards, content appears accurate clear, and in sequential order, most of the essential understandings, knowledge, and skills are supported, and many opportunities are provided for students to practice essential skills.

The High-Quality Instructional Materials Review Rubric is comprised of three sections:

Gateway 1: Alignment to Standards - **This is a requirement for submission.**

→ Advance to Gateway 2 only if Gateway 1 has a score of at least **13 points**.

Gateway 2: Rigor and Instructional Practices - **This is a requirement for submission.**

→ Advance to Gateway 3 only if Gateway 2 has a score of at least **15 points**.

Gateway 3: Usability

GATEWAY 1

Alignment to Standards - This is a requirement for submission.

High-quality social studies materials are coherent and aligned to the *Mississippi College- and Career- Readiness Standards for Social Studies* and contain five content strands for each level of proficiency: history, civics, civil rights, economics, and geography. High-quality texts are the central focus of lessons, are age- and proficiency-level appropriate in complexity and are accompanied by quality tasks aligned to the *Mississippi College- and Career-Readiness Standards for Social Studies*. To determine the Gateway rating, educators use evidence gathered from the instructional materials to score indicators related to each criterion.

- Criterion 1.1 (1a – 1c): Alignment and Accuracy**
 Materials adequately address the *MCCRS for Social Studies*
- Criterion 1.2 (1d – 1g): Learning Progressions and Coherence**
 Materials attend to the learning progressions emphasized in the standards, so that the curriculum is coherent both within grades and across grade bands and are coherent and consistent with the progressions in the *MCCRS for Social Studies*.
