Video: Digital Communication & Production, 5th Edition

By: Jim Stinson and Amanda M. Clark

Copyright: 2023

Subject: Multimedia Digital Video Production

Grade Level: 9-12

Video: Digital Communication and Production, 5e covers all aspects of video production, from preproduction to production to postproduction. The fifth edition has undergone extensive updates with a refreshed design using contemporary images and addresses the needs of modern technology, equipment, applications, and platforms, including video editing examples using the most recent version of Adobe Premiere Pro. Now available on the companion site, over 40 downloadable video and audio clips help busy instructors model chapter concepts and enable their students to visualize, create, and edit with a practical, hands-on approach. Additionally, 10 tutorial videos and accompanied assessments reinforce important concepts, such as shot composition and camera movements.

- New Section Projects integrate the concepts from each chapter into an on-going, larger hands-on capstone project.
- New chapters on Media Law and Ethics and The Digital Space prepare students for careers as they understand trusted practices for working with, publishing, and editing digital content on the web and for social media platforms.
- End-of-chapter review provides key comprehension evaluation with Know and Understand and Apply and Analyze questions, while Critical Thinking assessments promote higher-level thinking skills. STEM Activities prepare students for college and careers, and Communicating about Video exercises promote teamwork as students work with partners and in groups.
- Correlated to the Precision Exams by YouScience Video Production I and II to help students obtain real-world job skills and achieve certification. View Knowledge Standards here: [Video Production I](#), [Video Production II](#).

Application:

518-520 Chapter 22 Review Questions
 578-579 Section 7 Project: Capstone Project:
 Editing and Distributing Your Project

Unit 5: Video Editing	
Competencies and Suggested Objectives	
1. Implement keyframing techniques in video editing. ^{DOK3}	
a. Use keyframing to create dynamic motion in video sequences.	<p>Instruction: 536 Keyframes 536 Figure 23-28 Keyframes Can Be Used to Adjust Audio Levels Over Time 536 Figure 23-29 Keyframes are Customizable 536-537 Figures 23-30 – 23-35 Creating Keyframes 549 Chapter 23 Review</p> <p>Application: 550-551 Chapter 23 Review Questions 578-579 Section 7 Project: Capstone Project: Editing and Distributing Your Project</p>
b. Apply keyframing to transform visual elements over time.	<p>Instruction: 536 Keyframes 536 Figure 23-28 Keyframes Can Be Used to Adjust Audio Levels Over Time 536 Figure 23-29 Keyframes are Customizable 536-537 Figures 23-30 – 23-35 Creating Keyframes 549 Chapter 23 Review</p> <p>Application: 550-551 Chapter 23 Review Questions 578-579 Section 7 Project: Capstone Project: Editing and Distributing Your Project</p>
2. Synthesize effects and transitions in video editing. ^{DOK4}	
a. Apply effects to enhance visual storytelling	<p>Instruction: 80 Adding a Title and Effects 80 Figures 4-15 – 4-16 Adding a Title to a Video Project 81 Figures 4-17 – 4-18 Adding a Fade Out to Your Last Shot 535 Adding Transitions and Other Effects 535 Transitions 535 Figure 23-26 A Cross-Dissolve Transition 535 Figure 23-27 Adobe Premiere Pro Offers Many Transition Effects 536 Figure 23-28 Keyframes Can Be Used to Adjust Audio Levels Over Time 536 Figure 23-29 Keyframes are Customizable 536-537 Figures 23-30 – 23-35 Creating Keyframes 537 Superimpositions 537 Figure 23-36 Double Exposure 538 Compositing 538 Figure 23-37 Compositing Images 538 Titles and Graphics</p>

	<p>538 Figure 23-38 A Title Over the Background Narration</p> <p>539 Figures 23-39 – 23-43 Steps to Create a Simple Title</p> <p>540 Figure 23-44 Closed Captioning</p> <p>540 Figure 23-45 Create Closed Captioning</p> <p>540 Figure 23-46 Subtitles</p> <p>541 Lower Thirds</p> <p>542 Figure 23-48 Full-Screen Graphics</p> <p>542 Figure 23-49 White Space</p> <p>542 Figure 23-50 Easily Readable Text</p> <p>542 Image Processing</p> <p>543 Figure 23-51 Duotone</p> <p>549 Chapter 23 Review</p> <p>Application:</p> <p>550-551 Chapter 23 Review Questions</p> <p>578-579 Section 7 Project: Capstone Project: Editing and Distributing Your Project</p>
<p>b. Use transitions to guide viewer attention and pacing.</p>	<p>Instruction:</p> <p>535 Adding Transitions and Other Effects</p> <p>535 Transitions</p> <p>535 Figure 23-26 A Cross-Dissolve Transition</p> <p>535 Figure 23-27 Adobe Premiere Pro Offers Many Transition Effects</p> <p>536-537 Figures 23-30 – 23-35 Creating Keyframes</p> <p>549 Chapter 23 Review</p> <p>Application:</p> <p>550-551 Chapter 23 Review Questions</p> <p>578-579 Section 7 Project: Capstone Project: Editing and Distributing Your Project</p>
<p>3. Design and modify text and titles in video editing. ^{DOK3}</p>	
<p>a. Create text elements to provide information and enhance viewer engagement.</p>	<p>Instruction:</p> <p>80 Adding a Title and Effects</p> <p>80 Figures 4-15 – 4-16 Adding a Title to a Video Project</p> <p>538 Titles and Graphics</p> <p>538 Figure 23-38 A Title Over the Background Narration</p> <p>539 Figures 23-39 – 23-43 Steps to Create a Simple Title</p> <p>540 Figure 23-44 Closed Captioning</p> <p>540 Figure 23-45 Create Closed Captioning</p> <p>540 Figure 23-46 Subtitles</p> <p>541 Lower Thirds</p> <p>542 Figure 23-48 Full-Screen Graphics</p> <p>542 Figure 23-49 White Space</p> <p>542 Figure 23-50 Easily Readable Text</p>

	<p>542 Image Processing 543 Figure 23-51 Duotone 549 Chapter 23 Review</p> <p>Application: 550-551 Chapter 23 Review Questions 578-579 Section 7 Project: Capstone Project: Editing and Distributing Your Project</p>
<p>b. Modify titles to align with the overall aesthetic of the video.</p>	<p>Instruction: 80 Adding a Title and Effects 80 Figures 4-15 – 4-16 Adding a Title to a Video Project 538 Titles and Graphics 538 Figure 23-38 A Title Over the Background Narration 539 Figures 23-39 – 23-43 Steps to Create a Simple Title 540 Figure 23-46 Subtitles 549 Chapter 23 Review</p> <p>Application: 550-551 Chapter 23 Review Questions 578-579 Section 7 Project: Capstone Project: Editing and Distributing Your Project</p>
<p>4. Perform advanced color correction in video editing. ^{DOK3}</p>	
<p>a. Apply color correction techniques to improve visual aesthetics.</p>	<p>Instruction: 332 Controlling Color 332 Figure 16-12 Color Temperature Scale in Kelvin 332 Figure 16-13 Color Temperature in Video Lighting 333 Figure 16-14 Color Correction Filter 333 Figure 16-15 Neutral Density Filter 333 Figure 16-16 Blue Filters 351-353 Chapter 16 Review Questions 542 Image Processing 542 color correcting 543 Figure 23-51 Duotone 549 Chapter 23 Review</p> <p>Application: 351-353 Chapter 16 Review Questions 408-409 Section 5 Project: Capstone Project: Lighting 550-551 Chapter 23 Review Questions 578-579 Section 7 Project: Capstone Project: Editing and Distributing Your Project</p>

<p>b. Use color grading to influence mood and style.</p>	<p>Instruction: 484 Enhancing 484 Figure 21-19 Correcting Exposure 485 Figure 21-21 Uniformity 490 Chapter 21 Review</p> <p>Application: 491-492 Chapter 21 Review Questions 578-579 Section 7 Project: Capstone Project: Editing and Distributing Your Project</p>
<p>5. Organize and manage media during the editing process. ^{DOK2}</p>	
<p>a. Implement a media management system to ensure efficient workflows.</p>	<p>Instruction: 471 Chapter 21 Editing Operations 472 About Editing Operations 472 Video Editing 472 Figure 21-1 A Video Editing Work Screen 472 Creating the Video World 472 Figure 21-2 Elements of an Edited Program 473 Understanding Digital Postproduction 473 Figure 21-3 A Timeline in Adobe Premiere Pro 473 The Range of Editing Software 473 The Craft of Editing 477 Editing Phases 477 Organizing 479 Figure 21-10 A Slate 479 Real-World Video: Cloud-Based Software 480 Figure 21-12 Naming Video Files Helps Organize Them 489 Exporting 489 Figure 21-27 Exporting in Several Formats 490 Chapter 21 Review 521 Chapter 23 Digital Postproduction 522 About Digital Postproduction 522 Postproduction Workflow 522 Configuring Digital Projects 522 Video Formats 522 Frame and Time Measurement 523 Figure 23-1 Drop-Frame Timecode 524 Real-World Video: Differences among Frame Rate, Timecode, and Time Base 524 Video Scanning System 524 Figure 23-3 Interlaced Video 524 Figure 23-4 Progressive Scan Video 525 Picture Quality 525 Aspect Ratio 525 Figure 23-5 A Traditional 4:3 Monitor 525 Figure 23-6 A 19:9 Monitor 526 Audio Quality 526 Assembling Materials for Editing 526 Importing Camera Footage</p>

<p>6. Integrate artificial intelligence (AI) into video publishing and broadcasting. ^{DOK}</p>	
<p>a. Evaluate AI technologies for optimizing video content distribution on platforms like YouTube, Twitch, and traditional television.</p>	<p>The Goodheart Wilcox Television Production and Broadcast Journalism textbook does not specifically address this standard, however, please see the attached reference link.</p> <p>Additional Information:</p> <p>AI in Modern Broadcasting Studios</p> <p>AI is transforming modern broadcasting studios by automating routine tasks, enhancing viewer experiences, and streamlining content creation. Here are some key applications of AI in broadcasting studios:</p> <ul style="list-style-type: none"> • Automated Content Creation: AI can generate scripts, recommend edits, and produce highlights from live events in real-time, reducing post-production time and manpower. • Virtual Anchors: AI-generated avatars can present news, offering a cost-effective alternative to live anchors while maintaining professionalism. • Real-time Analytics: AI empowers broadcasters to adjust content and strategies on-the-fly, leading to optimized live broadcast

	<p>effectiveness.</p> <ul style="list-style-type: none"> • Quality Control: Automated systems identify technical issues like audio sync problems or visual glitches, reducing the need for manual checks. • Personalized Recommendations: AI algorithms analyze user preferences, suggesting content that aligns with individual tastes, enhancing viewer engagement. <p>Industry Insights: The state of AI in broadcasting and production - NCS NewscastStudio</p> <p>Khan Academy – AI in your life https://youtu.be/Ygboi9hrwN0?si=z8LOGpZtWDG_x6YZ</p>
<p>b. Analyze the use of AI in enhancing tasks in video broadcasting such as tagging, titling, and description generation for optimal discoverability.</p>	<p>The Goodheart Wilcox Video: Digital Communication & Production, textbook does not specifically address this standard, however, please see the attached reference link.</p> <p>Additional Information: Newscast Studio Key takeaways from this Industry Insights roundtable Automation: AI technologies now handle routine broadcast tasks including captioning, metadata tagging, and content indexing, allowing staff to focus on creative work. Infrastructure: Organizations face significant barriers in AI adoption, including high implementation costs, technical infrastructure requirements, and the need for specialized expertise. Live Production: AI enhances live broadcasts through automated camera tracking, real-time analytics, and automated quality control systems. Integration: Successfully implementing AI requires careful assessment of existing system compatibility and comprehensive staff training programs. Development: Future AI applications in broadcasting focus on improving accessibility features, expanding language translation capabilities, and automating content creation processes.</p> <p>Industry Insights: The state of AI in broadcasting and production - NCS NewscastStudio</p> <p>Khan Academy – AI in your life https://youtu.be/Ygboi9hrwN0?si=z8LOGpZtWDG_x6YZ</p>
